

Do you have a **fume hood** that you are not using, or could make available to a local business. I have been asked if anyone has anything that meets this criteria:

Minimum:

- 20m2 area.
- 1 fume hood/LEV with HEPA filter.
- Mains water & drainage
- Safety – including a policy that we can review.
- Security/confidentiality

Preferred:

- Compressed air
- Ability to add other compressed gases...via cylinder.

This is for a company testing graphene. They were operating out of the Graphene Engineering Innovation Centre at Manchester University, but this has been closed down due to the COVID-19 outbreak. If you are able to help, or know somewhere that might be able to, please contact: karen.davies@midas.org.uk

Hopwood Hall have just released a range of **free short online courses** all CPD certified. This could be ideal time to share with teams and staff working from home. Please see the link below for more information:

<https://www.hopwood.ac.uk/about/covid-19-free-online-courses>

If you or business require something specific or anything not on the list, please contact Tracey Wood, Head of Business Development tracey.wood@hopwood.ac.uk

Regards
